Professional Summary

Full-stack developer with **strong backend fundamentals** and practical experience building **scalable web and mobile applications**. Focuses on creating **smooth and easy-to-use digital experiences** through clear design and reliable development. Skilled in building **automation tools, interactive features, and using AI**. Values **clean code, real-world problem solving, and useful products**.

Education

Bachelor of Technology (AI ML) <i>Newton School of Technology (ADYPU), Pune</i>	2024 – 2028
Intermediate (Class XII) <i>GIC Inter College, Raebareli</i>	2023 – 2024
Matriculation (Class X) <i>Durga Intermediate College, Raebareli</i>	2021 – 2022

Projects

Aroma Luxe (GitHub) (Demo) <i>React Native, Node.js</i>	December 2025
- Built a luxury perfume shopping mobile app using React Native with polished UI and smooth performance. - Developed a personalized Scent Discovery Quiz using Context API with structured state management. - Implemented secure user authentication using Node.js, JWT, and AsyncStorage for stable sessions.	
Success Mantra Institute – Full-Stack Coaching Website (GitHub) (Demo) <i>React, Node.js, MongoDB</i>	November 2025
- Built a full-stack coaching platform using React 18 and Vite with a fast and responsive user interface. - Developed a secure backend using Node.js, Express, MongoDB, and JWT for role-based authentication. - Designed a gamified student dashboard with real-time quiz tracking and progress monitoring.	

Certifications

AI For Everyone – DeepLearning.AI (Link) <i>Coursera</i>	October 2025
- Learned core AI concepts, applications, and ethical considerations without coding. - Gained understanding of real-world AI use cases across industries.	

Skills

Computer Languages: SQL, JavaScript, CSS, HTML, TypeScript, Python
Software Packages: MongoDB, MySQL, Express JS, Node.js, React, Prisma ORM, React Native, Figma
Soft Skills: Communication, Critical Thinking, Creativity, Time Management
Others: Git and GitHub

Extra-Curricular Activities

- Attended and organized technical workshops on **Web Development, Data Structures, and AI/ML**.
- Delivered **6 open-source pull requests** during Hacktoberfest 2025 with **100% acceptance**.
- Organized and led college-level **E-Sports tournaments (BGMI, Free Fire)**.
